High Road

Wood Green, N.22

January, 1963

Dear Sir/s,

We have pleasure in presenting our revised Yellow Pocket List and are pleased to advise you that this is generally representative of the many lines we stock and with which we have had pleasure in supplying you in the past.

We are sure that you will appreciate that it is impossible to include every item that may be called for, but the goods shown herein are those goods continually stocked by us for which prompt delivery can be given.

We cordially invite you to visit our Showrooms and inspect the modern and comprehensive display of Fireplaces, Heating Appliances, Sanitary Ware and Kitchen Units. In the event of a customer of yours requiring to make a personal selection we shall be very pleased to give them every attention, and in such cases would you please be good enough to give them an introductory trade card.

Yours faithfully,

CAKEBREAD ROBEY & CO. LTD.

NEW GOODS

P.T.O. for List of all New Items included in this issue.

**The undermentioned goods are new additions to this list,
and details will be found on the pages quoted.**

Page 30	Polytiles, Polyfix, Polygrout Dundee Tiles and Adhesive.
33	The "Firemaster" Fire.
36	The Rayburn "Princess" Stove.

CREDIT SALES FACILITIES

Dear Sir/s,

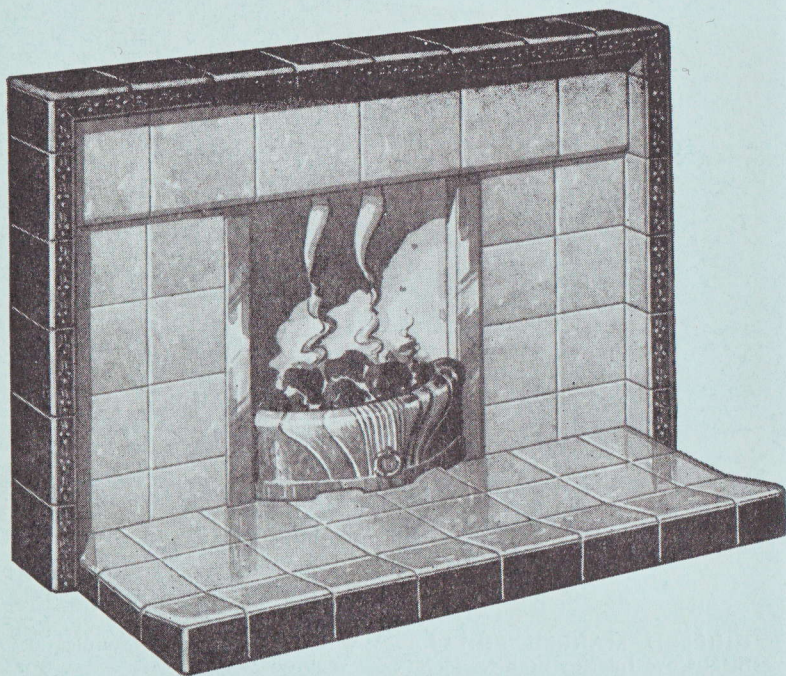

Our Deferred Payment Scheme is designed to assist the many private Houseowners who may wish to undertake renovations or modernization in the Home, but find that the cost is more than can be conveniently met out of savings.

Our Scheme covers not only the cost of the new Bath or Fireplace, etc., but also the Builder's charges for the fixing, whilst the Builder gets payment almost immediately the job has been satisfactorily completed.

Payment can be spread by the Owner over an extended period and the charges are moderate.

It is suggested that this Scheme should help our Builder friends to obtain more business. Particulars can be obtained at any of our Branches or Showrooms, or from the Company's Representatives.

THE "HEWITT" FIRECLAY THROAT CANOPY

The initial small cost of a Fireback Canopy is well worthy when fitting a fireplace. The Canopy gives a correct throat aperture ensuring an efficient fire. It affords protection to the back of the fireplace, so often exposed to extreme heat, and thereby ensures longer life for the fireplace by preventing cracking and tiles becoming loose.

The restricted aperture, whilst providing adequate updraught, prevents the flow of surplus hot air into the flue, thus giving maximum heat into the room.

The No. 10 Canopy is designed for fitting to New Fireplaces ..	Price	16"	18"
The No. 12 Canopy is designed for Existing Fireplaces ..	Price	13/4	15/-

"AGA" GRAVITY FEED BOILERS

The Latest addition to the AGA Solid Fuel Range

The "AGA" G.F.65

Fan Assisted

This Boiler burns small Anthracite grains $\frac{3}{16}$ " to $\frac{3}{8}$ " size.

Fuel is poured into a hopper just above the fire and feeds by gravity into the fire whenever Hot Water is required. The hopper needs be filled only once a day or every few days according to requirements.

Boiler is fully automatic, you simply set the thermostat to temperature wanted, whenever temperature falls a small fan is switched on which blows up the fire to an intense heat. All ash is fused into a solid block this is quickly removed no poking or riddling is necessary.

NO DUST · NO DIRT · LITTLE MAINTENANCE

The Model Stocked is the No. G.F.65 & G.F. 45

Width $19\frac{1}{2}$ " Depth $23\frac{1}{4}$ " Height 39"
